What is a Pet Wellness Plan and is it pet insurance?

A Pet Wellness Plan is a package of healthcare services for your dog or cat that offers you a significant discount over regular fees. Unlike pet health insurance, our plans are designed all around preventative health care. Together with a healthy diet, preventive healthcare is the most important thing you can provide for your pet as it helps optimize good health and prevents major medical problems. No, this is not an insurance plan, its better than that. Our plans are membership plans that allow you to provide your pet with comprehensive, high quality wellness care at up to 50% off regular fees. Most of all, the plans allow you to spread out the cost of care over equal monthly payments to allow for easier budgeting of your pets care.

Is it possible to cancel my Wellness Plan Membership?

All of our plans are annual agreements, which allow for you to pay for your services, interest free over a 12- month period. You may cancel your plan at any time before the expiration date, by either paying the retail value of your plan services used, or the remainder of your plan's value, whichever is less. Please read your Wellness Plan Health Care Agreement for complete terms and conditions of membership.

Every Wellness Plan Includes

- Multiple Free office visits and Exams
- Discount up to 50% on in-plan services

Wellness Plans let you provide for your pets preventive care with affordable monthly payments spread over 12 months with no interest!

"Our goal is to help pet owners provide the very best veterinary care to their pets at an affordable price."

Wellness Plans are a convenient and affordable way to provide the veterinary care your Pet needs. A Pet Wellness Plan is a pre-paid collection of discounted healthcare services for your Pet.

Wellness Plans are **NOT Insurance** - They're much better! They focus on preventive services that keep your Pet healthy.

By focusing on prevention, Wellness Plans help your Veterinarian better understand your Pets regular health care needs. Because your Veterinarian understands your Pets health baseline, they are more likely to detect a problem before conditions worsen. Early diagnosis can also result in a Better prognosis.

Why should my pet be on a plan?

It has been proven over and over that solid preventative health care can, and does, extend the lives of people and pets. Since pets age 7-10 years for every one year of ours, providing a regular health care plan for them is essential. In current economic times, estimates say that more than 80% of pets in the U.S. are not receiving the recommended level of veterinary care. Yet proper preventative care greatly extends our pets quality of life and helps prevent detrimental and costly illnesses. The Wellness Plans help make optimal wellness care possible for just about every pet owner and will help keep your four-legged family members part of your family for as long as possible.

Are any services not included in the plans?

Each plan includes a specific set of wellness services at the monthly fee listed for each plan. Sick pet medical care, surgery, lab work, and prescription medication, therapeutic diets, heartworm and flea/tick products, nutritional supplements, skin care products, as well as boarding and grooming services are not included in the plans and are subject to regular charges.

What is the difference between the plans and which is best for my pet?

The services included in each plan are outlined in the brochures, which you can download and review. Which package you choose depends a lot on your personal preferences and budget, as well as the age, breed, and lifestyle of your pet. For example, Young pets (1-3 years) can benefit from Silver wellness package. Pets dealing with dental problems can benefit from Gold package. Platinum package is mainly designed for geriatric and pets dealing with chronic illnesses.
